

Celestyal Discovery

NEW CABINS & SUITES

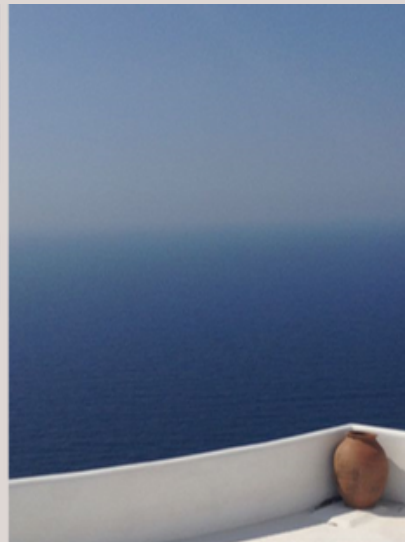

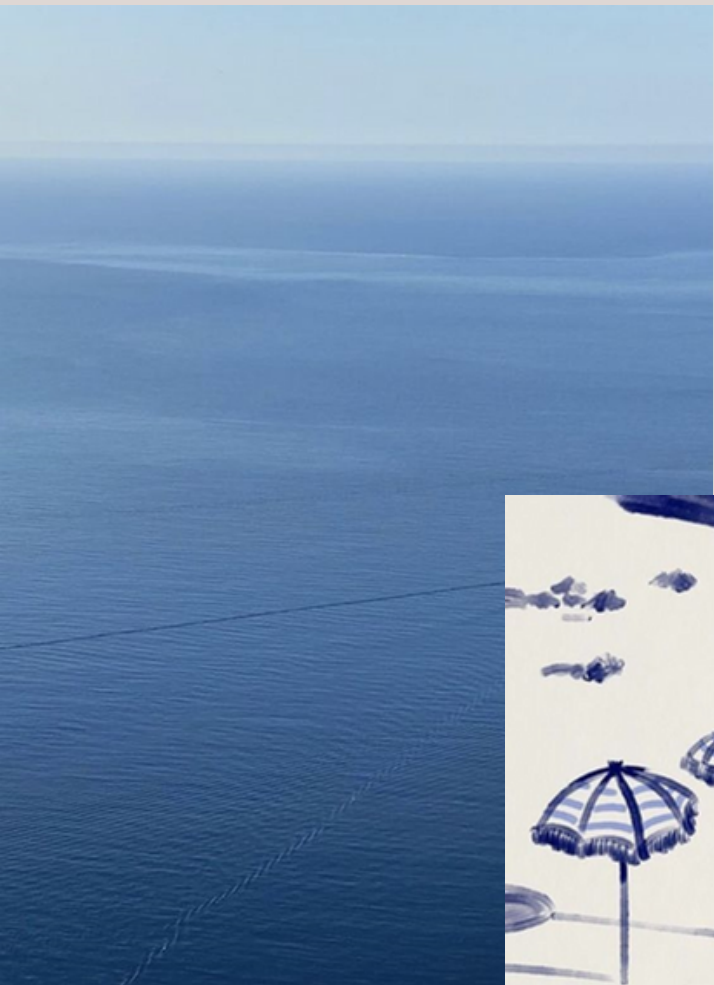

A New Chapter in Guest Experience
by

The new cabins and suites of Celestyal Discovery are designed as contemporary sanctuaries at sea — spaces where comfort, identity, and storytelling merge.

A contemporary design, in which Greek vibe and tradition blend.

Entering a space feels like extending the infinite blue of the sea, with a palette of colors bound with Greece and the Celestyal Cruises brand.

Every detail draws inspiration from the Mediterranean, creating an immediate connection to place.

We chose materials that create a soothing and calming effect, connecting to the natural world and creating a sense of harmony. This harmony extends from textures to light, ensuring each space feels both restorative and authentic.

earthy
@CLORS

Folk art elements and details influenced by our cultures and traditions play a significant role in shaping experiences. We incorporate touches of Greek craftsmanship, reinterpreted with a modern sensibility, so that each cabin resonates with meaning while remaining fresh and inviting.
